## Probing Questions

As you go through the presentation, use these starter questions to get your students asking questions for the Know/Need to Know Chart:

- What do you notice in these pictures?
- What questions do these images raise?
- What does that make you wonder about?
- What do we need to find out in order to solve any problems we see?
- What do you feel is absent in this picture? How would we find that out? What specifically do you want to ask these people?
