One World Ocean – Oceans Away Worksheet

Activity 1 – Follow that Current

Draw a picture to show what happens to the colored water, when the ice cubes dissolve in the warm water.

Activity 2 - Currents in the Wind

Draw a picture to show what happens to the spices as you blow over the surface of the water.

Activity 3 - Fresh Water Floats?

Did the salt water on top sink or float on top of the fresh water? Draw a picture of what happened when you added the salt water.
